

Tech Lead

Waltham MA

Osprey Software Inc. is a leading software application development firm specializing in the architectural design and delivery of complex business solutions. We focus on ensuring that our client's mission critical business applications result in a substantive business outcome, through a distinctive combination of architectural expertise, business knowledge and proven technology.

POSITION SUMMARY

We are accepting applications for a **Tech Lead** to plan, initiate, and manage information technology (IT) projects, lead and guide the work of technical staff, serve as liaison between business and technical aspects of projects. The incumbent will also plan project stages and assess business implications for each stage and monitor progress to assure deadlines, standards, and cost targets are met.

- Provide technical direction for the development, design, and systems integration for customer engagement from definition phase through implementation.
- Estimate, identify, prioritize and tasks to the whole team in the software development life cycle
- In concert with project manager ensure delivery and quality.
- Manage engineers and developers, ensuring they work collaboratively and efficiently.
- Review work of development team.
- Work closely with project manager and business analyst to ensure product meets business requirement.
- Build analytical models to test hypotheses
- Interpret complex data sets and package key insights
- Develop internal analysis tools to enhance processes for future engagements
- Design operational dashboards, tools, and reports to drive key decisions for customer management
- Design and build the infrastructure required for optimal extraction, transformation, and loading of data from a wide variety of data sources using SQL and other "big data" technology.
- Train and mentor other innovators and customers through both formal and informal training programs.
- Resolve and/or escalate issues in a timely fashion.
- Ensure adherence to architecture standards
- Apply significant knowledge of industry trends and developments to improve service to customers.

REQUIREMENTS

Master's degree in Mathematics, Engineering, Information Technology or a related field, with one year of experience in:

- JavaScript, jQuery, and other front-end technology;
- SQL scripting with exposure to a SQL RDMS such as Microsoft, Oracle, MySQL;
- Microsoft tools and .Net languages; and
- Java

For immediate consideration, please send resume with salary requirements with reference **LZ140** to jobs@ospreysoftware.com.
