

Project Manager

Albany, NY or Waltham, MA

Osprey Software Development is a leading software application development firm specializing in the architectural design and delivery of complex business solutions. We focus on ensuring that our client's mission critical business applications result in a substantive business outcome, through a distinctive combination of architectural expertise, business knowledge and proven technology.

POSITION SUMMARY

We have a great opportunity for a full-time **Project Manager** to work with one of our premier clients in the Albany, NY or Boston, MA area. In this position, the selected candidate will be responsible for managing the project, process and assigned team to develop and deliver applications and services. This involves frequent and direct communication with the client, and you will be expected to develop scope and cost estimates, efficiently resolve any impediments which arise and support the implementation of solutions throughout the course of the entire project.

SPECIFIC RESPONSIBILITIES

- Create and manage scope, cost, schedule and deliverables through the application of planning tracking, quality assurance, change control and risk management
- Lead a cross-functional project team throughout all phases of the application development cycle
- Work with the client to understand their business activities, workflows and needs, in addition to requirements gathering and analysis, and ultimately design, build, test and deployment
- Facilitate meetings on behalf of the project team, including scrums, release planning and product grooming meetings
- Monitor and manage project performance, including deliverables, milestones and expenditures
- Manage client relationships and expectations throughout the course of the project

RELATED EXPERIENCE

- Minimum of 4 years of leadership experience required, including experience related to managing software development teams, inspiring the development of team members, identifying opportunities for improvement and managing innovative change effectively
- Familiarity with Agile tools and practices
- Proficiency with project management tools, such as Microsoft Project, Excel, PowerPoint, etc.
- Experience working both independently and in a team-oriented, collaborative environment is essential
- Flexibility with respect to periods of change, ability to conform to shifting priorities, demands and timelines through the aid of analytical and problem-solving capabilities
- Ability to effectively prioritize and execute tasks in a high-pressure environment, while managing multiple projects simultaneously
- Ability to effectively convey message in both written and verbal communication; must have excellent interpersonal skills
- Ability to travel in the U.S. +10%
- Experience managing complex technical projects
- Familiarity with programming concepts and operating systems

We offer an excellent compensation and benefits package and an opportunity to learn, grow and contribute in a stimulating, fast-paced environment where individual contributions are recognized and rewarded. For immediate consideration, send resume with salary requirements to jobs@ospreysoftware.com.
